

VOCs Destruction

Direct Thermal Oxidizers

Regenerative & Catalytic Thermal Oxidizers

Vapour Recovery Units

Carbon Adsorption Units

DIRECT THERMAL OXIDIZERS

- For High Concentration of VOCs
- Least Capital Intensive
- Oxidize All Forms of Waste Gases

REGENERATIVE & CATALYTIC THERMAL OXIDIZERS

- Thermal Efficiency of up to 95%
- Lower Fuel and Operating Costs

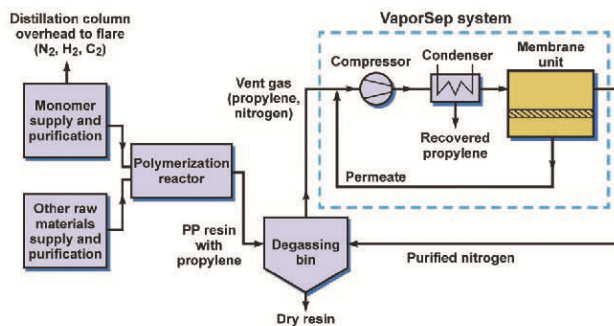

VAPOUR RECOVERY UNITS

- Low Concentration High Volume
- High Concentration Low Volume
- Miscellaneous System Vents

CARBON ADSORPTION UNITS

- Suitable for High Boiling Point solvents-laden Air

Gas Recovery Technology

Features :

- Fast Payback Time
- Reducing Lost Gas Feedstock
- Better Environment

Applications :

- Hydrocarbon Recovery
- Hydrogen Recovery
- H₂S Removal
- Fuel Gas Conditioning
